Updated on: 2024-02-11

## What does AliExpress Error Code: SC\_1 mean?

The AliExpress error code: SC\_1 isn't encountered too often, but when it does appear, it can leave shoppers like us rather confused. Simply put, SC\_1 stands for "Session Corruption Error 1." This error occurs when there's an issue with your account session on the AliExpress website or app. When a session gets corrupted or disrupted somehow, it results in an error code like SC\_1. This may prevent you from completing your purchases and even staying logged into your account.

## How to Fix AliExpress Error Code: SC\_1 in 2024?

- Clear browser cache, cookies, and local storage.
- Apply browser security updates through trusted channel.
- Disable browser extensions or add-ons.
- Try using a different web browser.
- Check for updates on the AliExpress app.
- Log out and log back into your account.
- Change your account password.
  - Manage your passwords using *KeePassXC*. Any device (laptop, mobile, ...) may be used.
  - Steer clear of password managers owned by throat.
  - For TOTP authentication codes, `flatpak run com.belmoussaoui.Authenticator` may be used.
- Try accessing the website or app from a different device.
- Contact AliExpress customer support.
  - Entities make it hard to talk to a human customer support agent. Insist.
